

*Magic never stops at what we just live*

Welcome and thank you for downloading this list of Disneyland® Paris' secrets. Whether you're a fan of the Disney world, a fan of magic, or just a web beast, we hope that with this list you will discover a new way to discover the Disney® French parks!

Bring this list, a pencil, a camera and especially your eyes to discover all the secrets and details of the parks!

This list is non-exhaustive, that is to say we have not referenced all the secrets and details of the parks. We have actually referenced more than 230 in our files, and we offer you here more than 100 to give you a more qualitative than quantitative content! It is also unofficial, that is to say that we are not under the thumb of Disneyland® Paris.

### **But who are we?**

Simply passionate people wanting to discover the world of Disney parks in another way. Our site has been around since 2011 and we are always referring to more secrets and details scattered in the French parks thanks to fun and complete articles.

A first list like this one was also created in 2012. This new and more complete list is a new way of thanking you for your support through all these years.

So now, let the magic work! Have a nice trip and have a good read!

*Your humble servant, Erbam.*
